# Scott Greene
## DIGITAL FORENSICS EXPERT WITNESS

## About

For over 42 years, Scott Greene has been helping judges, attorneys, and organizations understand data. Scott collects, analyzes, and explains complex electronic and digital evidence in legal matters. His extensive & diverse experience allows him to be an expert in many facets of digital technology including Cell Phone Forensics, Black Boxes / Event Data Recorders (EDRs), Triangulation, Electronic Logging Devices (ELDs), Computers, Electronic Medical Records (EMR) Forensics eDiscovery, Mobile Device Passcode Breaking, & much more.

Scott founded Evidence Solutions, Inc., a premier forensics and expert witness firm, and Great Scott Enterprises, Inc., which provided superior computer consulting services. Great Scott Enterprises' array of services included: custom programming, database design optimization, administration of databases, evaluation of existing systems to ensure optimal efficiency, profitability analysis, as well as design and implementation of knowledge base systems.

Today Scott is an Affiliated Professional Member of the American Bar Association and heads the Digital Forensics Division of Evidence Solutions, Inc., working as an Expert Witness and Digital Forensics professional. He has served as an Expert Witness and Special Master in both Federal and State courts and has provided expert testimony in more than 50 cases. He is a sought-after speaker and educator and travels throughout the country presenting to local, regional, national, and international organizations.
